Recommendation Letter

AHSAN IBNE MAHFUZ ARNOB (Passport No. B00771916) has shown strong motivation and maturity throughout his higher secondary phase. He was associated with Shahid Bulbul Govt. College, Pabna, and is an irregular HSC candidate under the Rajshahi Education Board of the session 2023-2024. He appeared in the Higher Secondary Examination from the Science group and obtained an overall GPA 3.17 out of 5.00. His HSC Registration is No. 1812720800 and Roll No. 602740.

I am writing to recommend him for the admission to your Bachelor Program. Although his academic results are moderate, feedback from his teachers indicates that he has consistently demonstrated discipline, sincerity, respect for authority, and a clear willingness to improve. He maintained regular attendance (approximately 90%), showed good punctuality, and followed institutional rules and classroom responsibilities properly.

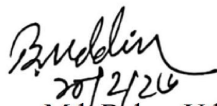

Beyond academics, he remained involved in institutional activities and initiatives and demonstrated cooperation, responsibility, and teamwork with peers. He interacts well with people from different backgrounds and contributes positively to a collaborative environment. I believe he is prepared to benefit from an international academic setting and will take his studies seriously with commitment and integrity.

He has also demonstrated practical problem solving skills in a real institutional setting. On one occasion in our computer laboratory, when our computer teacher was unable to identify the cause of a network connectivity issue, he took the initiative to assist. He approached the matter calmly and methodically, carried out step by step troubleshooting, identified the underlying problem, and helped restore normal functioning. This incident reflects his technical aptitude, confidence under pressure, and ability to apply knowledge in practice qualities that, in my view, make him well-suited for further study in computer related fields and personal academic growth.

I respect his decision to pursue higher education at a foreign international university, and I am confident he will represent our institution and Bangladesh responsibly. If you require any further information regarding him, please do not hesitate to contact me.

I wish him a successful and happy life, and every success in his future academic and professional careers.

With best regards,

20/2/26
